

Malmesbury Carnival Procession: Saturday 5th September 2020

Entry Form

(Please return to the address below by Tuesday 1st September 2020)

Malmesbury Carnival thrives on the entries received for the procession. Anyone can enter, and all sorts of entries and new ideas are welcome. In previous years we've had lorries, tractors & trailers, walkers, wheelchairs, cyclists, cars and more. To enter, please complete the details below. **Entry is free.**

| Groups | Group Classification | Which Group is your entry in ?? (please tick below) |
|----------|--|---|
| Group 1A | Articulated motorised vehicles (articulated lorries, articulated tractors and trailers). The whole float must not exceed 2.55 metres wide, 4.5 metres high | |
| Group 1B | Motorised vehicles (except disability vehicles) The whole float must not exceed 2.55 metres wide, 4.5 metres high | |
| Group 2 | Groups of walkers, cyclists and hand propelled entries | |
| Group 3 | Individual walkers, cyclists, hand propelled entries, decorated wheelchairs and motorised mobility vehicles. Individual young people and adults with additional needs can be accompanied by a supervisory adult. | |

Each Entry must have an Entry Manger. The Entry Manager is the person with overall responsibility for the Entry and must accompany the Entry during the Procession. For Group 3, the Entrant is the Entry Manager.

- 5pm Road closures across remainder of Procession route
- 5.30pm Judging finishes. Prize awards and press photos
- 6pm Procession starts
- 7.30pm Procession finishes
- 8pm Roads re-open

SUSTAINABILITY

We are pleased to be working with Malmesbury Against Plastic (MAP) to improve the sustainability of Carnival. In 2019 the Town Council awarded MAP Community Organisation of the year, and a founder was Young Person of the Year.

So wherever possible, please follow the three R's:

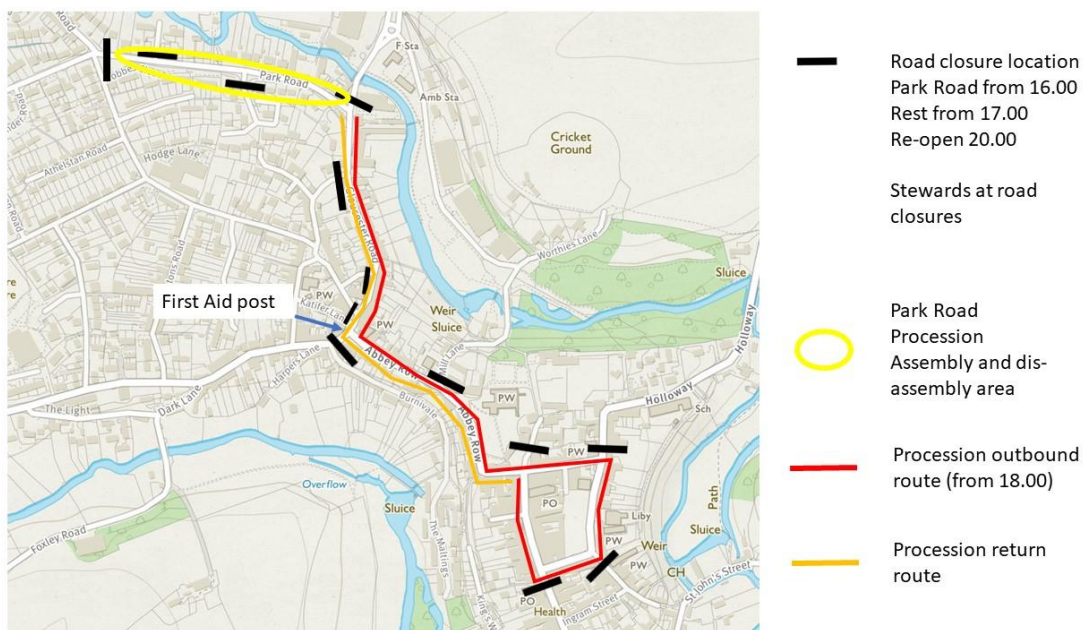

- **Reduce.** Minimise waste. For example: avoid disposable cups/cutlery/containers altogether
- **Re-use.** For example: use re-fillable containers
- **Re-cycle.** For example: if necessary, use home compostable cups/cutlery/containers made from paper or wood and ensure other waste is recycled.

Maybe even encourage your supporters to walk or cycle to Procession !!

HEALTH AND SAFETY

Carnival Committee is committed to the safe delivery of Procession for the several thousand members of the public who attend, for all float Entrants and for everyone else impacted by Procession.

The Procession route (see map) covers approx. 1.5 miles including up and down hill sections, and tight corners, *in particular the left turn at the top of High St onto Gloucester St.* The actual Procession is expected to last from 18.00 to no later than 20.00, so no more than 2 hours. Additional time is required for float assembly and dis-assembly before and after Procession. Please ensure you, those under your care and your float are adequately prepared for this !!

Carnival Committee will circulate an Entrant Information Pack prior to Procession containing details for the day. In addition, and as part of our approach to Health and Safety, we have to say:

- No naked flames or pyrotechnics
- Nothing to be ejected from the float which may compromise the safe enjoyment of the Procession by others
- Group 1 entries must include their own Wheel Walkers. The role is to keep people, especially children, away and out of danger from the vehicle and ensure the driver stops immediately, in the event of danger. (Children often run out to retrieve coins even when vehicles are passing). The float walkers must wear distinctive sashes (supplied by the Carnival committee) and have no other role, e.g. not carrying collection buckets.
 - Group 1A: Articulated lorry or tractor and trailer – 6 Wheel Walkers. One on each corner and one on each side of the rear of the traction unit
 - Group 1B:
 - All lorries. 4 Wheel Walkers – one on each corner
 - Cars and vans. 2 Wheel Walkers - one on each front corner

As part of your approach, below is a guide of some things to consider while assessing the risk presented by your innovative design !!

- Entrants are responsible for the safe design of their Entries
- For Groups 1A and 1B, the base vehicle and trailer, and driver, must be 'road legal' i.e. meeting current legislation and the Road Traffic Act
- Consider the safety of people carried on the float and how to avoid falls from the float
- Consider the safety of the public that the float will pass during Procession
- The float should be robust enough that stuff won't fall off (potentially injuring people) while the float goes up and down hills, round tight corners, or when braking is required
- Consider any fire risk if combustible material is present (fuel for generators, hay and straw etc.)
- Consider electrical risk from generators, particularly if 240v cables and connections are used
- Any gas appliances must carry a Gas Safe certificate – we cannot accept entries without this. Any gas cylinders must be appropriately stored on the vehicle.
- Consider how coins donated by the public may be safely collected. Methods may include nets and buckets
- Entrants should familiarise themselves with the route to ensure their design can navigate safely around the route
- There may be other risks that your innovative design requires you to consider !!
- Please note that Carnival Insurance does not cover Entrant liability so you may wish to consider your own insurance
